

Class 3 and 4 Newsletter

Week beginning 19th May

English

In English we are going to plan our own fantasy story and use the alien characters. What will the aliens love this time they visit Earth? List your ideas and bring them in to share with us. We will then write our own fantasy story remembering to use vocabulary, connectives, openings and punctuation. Illustrations will be our last job to complete our story booklet. We can't wait to share some great stories!

Maths

In maths we will be consolidating our work on calculations by looking at a range of addition, subtraction, multiplication and division questions and using them to play games. We will also be doing to measuring of lengths in centimetres and seeing why it is an important real life skill.

Topic

We will continue with our rocket models this week. We will modify and improve them by adding additional features. Later in the week we will evaluate our models and share them with the rest of the class. We also have art enrichment day on Friday where we will be having a full day of art!

Other Notes

Next week is Walk to School week. Please, when possible, try to walk to school. We will be asking the children how they got to school when they arrive. Walking to school is good for health and the environment.

Advance notice

After half term our topic is journeys. On the first day back (Monday 2nd June), the children will be asked to draw a map of their route to school. Please use next week, which is Walk to School week, to look at your route. Which direction do you go? Which way do you turn? What roads do you travel down? It would also help if your child knew their home address.

Thank you,

Miss Plews, Mrs Hearson and Mrs Carr-Brion
