

# Homework Class 2 - Year 1

Week beginning 30<sup>th</sup> June 2014

## English

This week we will be writing our own stories based on the Magic Bed and will be writing a recount about our trip to Filey.

## Maths

Last week we practised using repeated addition to find totals for groups of the same amount. Have a go at some of these: If I put 2 flakes on each ice cream, how many flakes would be on 8 ice creams? If each Year 1 needs 2 wellingtons, how many wellingtons would 10 Year 1s need? Can you think of any questions of your own using counting in twos, fives or tens? We have been using the Splat 'One-Hundred' Square a lot recently to practise counting in twos, fives and tens. It has been very popular! For those of you are able and would like to use it at home, here is the web address:

<http://www.primarygames.co.uk/pg2/splat/splatsq100.html>

## Enterprise Week

We will be continuing to prepare for Enterprise Week by making posters and signs for our jelly stall. We have sent out slips to see if you would like to help, so if you can, please return them to us by Friday.

## Show and Tell/ Stay and Play

With only a few weeks left before the holidays and with lots of exciting events planned, there will be no more Show and Tell and Stay and Play sessions. We have really enjoyed these events and it has been fantastic to share what we have been doing in and out of school. Thank you for all your support and encouragement!

## Filey and Transition afternoon

Remember it is our trip to Filey this week on Thursday. Please see the letter for a reminder of what to bring.

On Tuesday we will be spending the afternoon in our new classes. We will be returning to our current classes for home time though.

Have a fantastic weekend!

Mr Baines, Mrs Rathmell, Mrs Pickup and Miss Sky
