

Homework Class 2 - Year 1

Week beginning 7th July 2014

English

This week we will be completing our Magic Bed stories and learning about how to end stories effectively. We will also be learning how to write a good recount by improving the recounts of our trip to Filey, which we have written in Exciting Writing. We will be looking at using time words, describing words and interesting ways to start a sentence. Why not have a go at writing a recount about something you did at the weekend? Perhaps you have seen some of the Tour de France and would like to write about that!

Enterprise Week Maths

Our maths this week will be very much based around Enterprise week and our jelly stall. We will need to use some data handling to find out which jelly flavours are the most popular, and, very importantly, we will need to be able to work out how much money we are making! Can you work out the answers to these at home? If we sell jellies for 50p, how much would 2 jellies cost? How much would 6 jellies cost? If someone spent £2 on jelly, how much change would we have to give them if they gave us £10?

Don't forget: our jelly stall is open for business on Monday, Tuesday and Thursday after school. Don't miss out!

Topic

We will be returning to investigate different forces in our science lessons by making our own skateboards and testing them! We have all had a go at designing a skateboard now, but if you would like to improve your design and make it even more spectacular and colourful, why not have a go at home?

Transition morning

On Friday morning we will be visiting our new classes for the last time before summer. Good work assembly will take place as normal.

Have a fantastic weekend!

Mr Baines, Mrs Rathmell, Mrs Pickup and Miss Sky
