

# Class Five/Six

Friday 14<sup>th</sup> November 2014.

## Project

We have already received some really challenging word problems from you for your next homework!

This homework isn't due in until the **week beginning the 24th November** so if you haven't already; please prepare some questions for us to solve using our maths skills. Please don't forget to provide the answers too!

## Reading

Try to read at home daily and ask an adult to write a short comment in your Reading Records once a week. Well done to those children who regularly fill in their Record.

## Spelling

Next week we are looking at the prefix –inter. For example: *interact*. Please learn the spellings that you have taken home today ready for next week's lesson.

## English

In English we will be mummifying a willing volunteer and then writing about the complex process that we will follow.

## Maths

Next week in maths we will be learning about fractions of quantities and shapes and we will be comparing fractions.

We will re-visit the 11 times table for your second attempt in the Times Table Challenge.

The My Maths login is: **parkgrove** and the username is: **multiply**. The task this week needs to be completed by **Friday 21<sup>st</sup> November**.

## Mystery Maths

Remember to take part in Mystery Maths this week! See the Class 5 or 6 blog for the new question.

Well done to Elle Rigby in Class 6 who was the first winner of Mystery Maths.

Please go to: <http://parkgroveprimary.co.uk> to take part (you can blog your answer on either Class 5 or 6's blog). Happy searching!

## Other Notes

Remember that next Tuesday (18<sup>th</sup> November) it is our Design and Technology Enrichment Day which will have an ancient Egyptian theme. Be prepared for lots of fun and hard work!

---

Have a great weekend, Mr Baines and Miss Land.
