23rd January 2015

Double Trouble

In maths this week we have focused on doubling. We know that when you double a number it gets BIGGER.

We have had lots of fun using our 'doubling machine' on the interactive whiteboard to double numbers and have used the spots on ladybirds to help us count doubles. We think we know them up to 10...ask us to tell you a double!

In our art lessons with Mrs Shelton we have been working on a collaborative group piece that we have called 'A Winter Wonderland'. Everyone has contributed to the piece and we are sure you will agree that it's looking fantastic!

Home/School agreement

Anyone who hasn't already returned the home/school agreement could you please get it back to us as soon as possible. Thank you.

A request...

We all love building using different materials in our workshop.

Instead of recycling your old boxes, tubs and tubes please bring them into school for us to re-use. We have made some fantastic things this week...

What will we be learning next week?

We will be baking!! Our literacy work is beginning to focus on Nursery Rhymes so we will be baking with ingredients found in Old Mother Hubbard's cupboard! What are your favourite nursery rhymes?

Our maths skills will be put to the test trying to weigh out the correct ingredients, have a practise using scales at home if you can. Hopefully we will have a tasty treat to bring home at the end of the week!

Week beginning 26th January...

Monday: Please remember to bring your library book to change. Travelling Ted should return to school today and tell us all about his weekend.

Wednesday: PE kit

Thursday: Homework books collected in.

Friday: Stay and play

Please remember to bring your book bag into school and keep it in your drawer.
