

Class 3 and 4 Newsletter

6th February

English

In English we will be having a scientific debate about whether hot or cold places are best. We will also be recapping what we have learnt this term and writing a report, drawing on what we have been learning about information texts. Our exciting writing this week involved writing a letter as if we were Gnomeo or Juliet!

Maths

This week in Maths we will be using the laptops to control an on screen turtle. We will make this turtle move in different directions and positions then use language to describe this. We will also be practising our multiplication skills by drawing groups of objects, arrays and using repeated addition on an empty number line. Please refer to our calculation policy for further information.

Topic

This week we will be carrying out an investigation to find the best material for a hot water bottle. Please bring one in if you have one. They will be returned the same day.

On Tuesday we have a music enrichment day when the children will be taking part in several workshops exploring different aspects of music.

Thank you for the wonderful homework we have seen in the homework books. We have been overwhelmed by the quantity and quality of work the children have produced at home.

Thank you,

Miss Plews, Mrs Hearson and Mrs Carr-Brion.
