

# Class Five/Six

Friday 8<sup>th</sup> May 2015.

## Project

Recently in Design and Technology you have learnt important cooking skills, including how to chop ingredients effectively.

For your next homework project we would like you to design a healthy recipe that uses one or more of the skills that you have learnt in class. Your recipe should include both a list of ingredients and an equipment list. It should also clearly show the skill you have incorporated into it from Design and Technology lessons. Lastly, your recipe may be linked to a British county.

When you have presented your recipe to your class, we will put the recipes altogether to create a Key Stage Two book.

This homework project will be due in the **week beginning 18<sup>th</sup> May** (the last week of this half term). We look forward to hearing your tasty ideas!

## Spelling

You have been given further words with the suffix -cian to practise for homework. We will be testing you on these spellings next week.

## Reading

Please continue to fill in your Reading Record at least once a week.

## English

Next week in English we will be looking at the story of Robin Hood.

## Maths and Times Tables

Next week in Maths we will be revisiting our multiplication and division methods.

You all know individually which times tables you need to learn for the week. Please practise them at home ready for your Times Table Challenge or Club Test!

The My Maths login is: **parkgrove** and the username is: **multiply**. This week's task needs to be completed by **Friday 15<sup>th</sup> May**.
