

# Class Seven

Friday 15th May 2015

## Project

Recently in Design and Technology you have learnt important cooking skills, including how to chop ingredients effectively.

For your next homework project we would like you to design a healthy recipe that uses one or more of the skills that you have learnt in class. Your recipe should include both a list of ingredients and an equipment list. It should also clearly show the skill you have incorporated into it from Design and Technology lessons. Lastly, your recipe may be linked to a British county.

When you have presented your recipe to your class, we will put the recipes altogether to create a Key Stage Two book.

This homework project will be due in the week beginning 18<sup>th</sup> May (the last week of this half term). We look forward to hearing your tasty ideas!

## Spellings

You have been given a list of words using the suffixes '-sion' and '-ssion' to practise for homework. We will be testing you on these spellings next week.

## Maths

We will be continuing our work on fractions and decimals next week.

## English

Next week we will be continuing to use the legend of Robin Hood as an inspiration for our written work, creating newspaper reports about the goings on in Sherwood Forest. If you are able to, why not have a look at different examples of newspaper reports over the weekend and think about the features you could include.

## Other Notes

Next Friday will be Maths Enrichment day and we will be taking part in arty maths activities. The Year 4s will also be taking part in 'Bike It' maths workshops.

Please ask your parents to return their reply slips if they would like to take part in any of our Maths and English workshops on Wednesday 10<sup>th</sup> June.

Have a lovely weekend!
