

Class Eight/Nine

Friday 15th May 2015

Project

Please remember that your homework project is due in this coming week!

We would like you to design a healthy recipe that uses one or more of the skills that you have learnt in class. Your recipe should include both a list of ingredients and an equipment list. It should also clearly show the skill you have incorporated into it from Design and Technology lessons. Lastly, your recipe may be linked to a British county.

When you have presented your recipe to your class, we will put the recipes altogether to create a Key Stage Two book.

Spellings

Don't forget that your spelling homework is due in on Thursday 21st May. For this you will need to list some of the answers to the questions on the game board. We will test you on some of these spellings too.

Extension

You could play the game with someone at home. It might be an idea to give the adult you are playing against a time limit to answer the questions. You could also make a silent letter game of your own.

Maths

We will have a fun-filled week of word problems to attempt next week. Can you think of and bring a word problem to share with the class?

We also have the added excitement of Maths Enrichment Day on Friday where you will undertake a variety of Maths-Art activities.

Tests!!!

Well done Year 6! All your super hard work has paid off as you tackled each test with a fantastic attitude and determination to succeed. We really enjoyed your company over breakfast this week and hope you did too.

Other notes

Please remember that Friday 22nd May is the last day of this half term.
