

# Class 2 newsletter

5th June 2015

## Year 1

### English

We will be looking at information texts, we have a brilliant information centre in our classroom all about York. We will pretend to be news reporters sharing our views on York and its history. We will also think about the features of information texts, practise writing our own and then editing to improve the content and add more detail.

### Maths

We will be working on weighing objects and measuring lengths using standard units of grams/kilograms or centimetres. Why not have a try at home weighing some objects. Can you put the in order from lightest to heaviest?

### Topic

The children are looking forward to our exciting trip coming up this week walking the city walls. We will also be learning all about the history of York starting with the Romans. How did they get here? Why did they come to York?

## Positive Language Week

The children been amazing this week showing each other superb manners, complimenting each other and generally making each other feel special. Keep it up! Class 2 performed a rap dance to the rest of the school and looked great in their shades and caps.

We also had a visit from the local fire brigade. We explored the inside of a fire engine and learnt about the equipment used for fire fighting. Can you remember many hoses the fire engine has?

## Events coming up.

The children are looking forward to our *Geography and History Enrichment Day* on Tuesday 9th June. Please ensure your children are wearing sensible shoes and bring a water proof just in case.

Don't forget about 'The Big Bounce' taking place on Monday, we hope you have lots of sponsors.

## Week beginning 8th June

Monday: 'Big Bounce' and Library books returned please.

Tuesday: *Geography/History Enrichment day*, Forest schools for Reception.
