

Class 3 newsletter

11th September 2015

Our topic this half term is
'Getting to Know You' and 'Hear us Roar!'

Fantastic counters!

What have we done this week?

This week has been really exciting as we have got to know all about our new classroom and are beginning to get used to new routines!

In English we have been learning all about labels and have even created our own to add to pictures and objects around the class.

In maths we have been focusing on counting and are beginning to get really fantastic at counting in 1s, 2s, 5s, and 10s!

We have created a class charter to keep us happy and safe in our learning environment.

In Art we took lines for a walk and filled in the spaces with different types of line.

Week beginning 14th September

Monday: Children will get their first library book

Tuesday: PE kit

Wednesday: PE kit

Thursday: Flapjack day, bring 50p if you would like a drink or flapjack at playtime
Please remember to bring your book bag into school. We will be sending homework and spelling books out at the end of the week.

What are we doing next week..?

English

In English we will be looking at captions and thinking about the purpose of captions and why we would use them. We will have a go at matching captions to the correct objects and writing our own captions for different pictures. Look at the objects around your home, can you write captions to describe what these objects are or what they do? Bring them in to share with us.

Maths

In maths we are comparing and ordering numbers using the value of each digit in the numbers to help us, e.g. 26 is 2 tens and 6 units. We are using signs such as $<$, $>$ and $=$ and playing some games to help us. We will also be estimating and measuring the lengths of different objects and using this to solve problems. We are doing lots of work on counting in class and each child will be given a counting target. Please ask them about it and help practise at home.

Topic

In topic we will be looking at changes in technology. If you have an old mobile phone or Walkman at home etc we would love to see them.

We will also be looking at how to stay healthy in science.

In Art we will be looking at the work of Matisse and creating some artwork based on his work.

In Music we will be focussing on singing and performing chants and rhymes.
