

Class Nine

Friday 16th October 2015

Project

Continuing our exploration topic, we would like you use your new knowledge to create a song, poem, rap or rhyme about your favourite explorer. You could perform a song about Roald Amundsen's exploration to the South Pole or you could write a poem about Francis Drake's discoveries. If you are feeling really creative you could even produce your own music video!

You can present your work in any way you choose but please have your project ready to present to your class on **Friday 23rd October**. Good luck and we are looking forward to seeing your finished pieces!

Reading

Please ensure that you keep filling in your Reading Record. Remember those Dojo points that we have up for grabs here in Class 9 – you get one point every time you read to an adult and they make a comment in your record!

Spelling

This week we looked at spellings with the suffixes –ant and –ance. Please can you complete the word jumble worksheet that is stuck in your books by **Monday 19th October** and practice the spellings for your next session.

Maths

Next week we are going to be looking at co-ordinates and converting between miles and kilometres.

English

We are going to finish the half term with a different focus on persuasive writing. You will find out more next week!

Other Notes

As from next week, Class 9 will have their maths Club Test on a Monday morning. The new club test sheets will be given out on Monday afternoon so then you have a full week to practice your times table facts.

It's Science Enrichment day on Tuesday 20th October and we will be blasting off with a space theme ready to continue our 'Life on Mars' topic after half term!

Don't forget parents' evening on Wednesday 21st and Thursday 22nd October.
