

Class 2 Newsletter

2nd October 2015

The reception children loved designing their own volcano for our story setting.

English

Year 1 children have been comparing two stories and thinking about the different characters and settings in each story. The children first designed their own character and then their own setting. They wrote super sentences to describe them. We have settings with aliens, scary dinosaurs, enormous caves, deep dark jungles and lava spitting volcanoes.

Maths

We have some great budding mathematicians in our Class 2 and this week we looked at number bonds to 10 well as lots of adding using a number line. Look at us playing ZAP the Number!

Week beginning 5th October

Monday: Library books

Tuesday: Forest Schools—Reception

Wednesday: PE kit, spelling and homework books

Thursday: Flapjack day, bring 50p if you would like a drink or flapjack at playtime

Friday: P.E kit

Please remember to bring your book bag to school with your reading record each day.

What are we doing next week..?

HEAR US ROAR!!

English

The children are very excited about our new topic and are showing great interest in all the different animals. We will continue with our fantasy setting and use a box of interesting objects to help us write our own story. We will also be completing our second session of 'Exciting Writing'. The reception children will explore the book 'Going on a Bear Hunt' by Michael Rosen.

Maths

In Maths we will be looking more closely at the value of each digit in a number. We will also be looking at telling the time using analogue clocks and drawing different times on pictures of clocks. Please look at the clock at home and see if you can help your child with the hours and hands. Reception children can play 'What's the Time Mr Wolf?'

Topic

In topic we will be beginning to think of different activities that we do with members of our family.

In Science

We will be looking how to describe the weather and how the weather changes through the seasons.

In Geography we will be starting to look at where different dinosaurs lived around the world.
