2nd October 2015

Making Dens

Sage came to visit us again in Forest Schools and we tried to make dens using sticks and fabric. Unfortunately the ground was very hard so it was tricky to get our poles to stand up. However the children were very inventive and used the fence to help them build a cosy den!

Bowling

We had lots of fun this week bowling over skittles in the outdoor area. We thought about how many we had knocked over and how many were left. We also thought about which ball would be the best to use to knock the most skittles over!

What are we doing next week..?

Next week we will be looking at non-fiction books about animas and forests. Do you know any fantastic facts about wild animals?

Our role play area is changing from a home corner into an explorers' cabin!

We are also going to start learning our songs for the Harvest Festival and thinking about the changes we can see in Autumn.

Rumble in the Jungle!

We started our new topic 'Hear Us Roar!' this week. We were all very excited to think about where different animals live and what patterns they have on their skin or fur. Everyone has worked really hard at labelling pictures of animals and matching up the patterns to the right animals.

Next week we will be drawing maps of the jungle and learning more facts about animals that say 'Roar'.

Week beginning 5th October...

Monday: Bring back Library books

Tuesday: Forest schools pm

Wednesday: PE kit. Homework books in.

Friday: Homework going home.

Don't forget to check our class blog on the website and leave a comment! Also, please continue to use the post-it notes outside the classroom to tell us about your child's interests!

Please remember to practice your sounds in your homework books and bring them on Wednesday.
