

Class Seven

Friday 6th November 2015

Project

For your next homework project, you must imagine you are an astronaut and you've landed a spacecraft on a new planet.

We would like you to write a short story about your adventure from your perspective. Please try to describe what you saw, heard, smelt and touched. Think carefully about whether any people, animals or plants were there and any other exciting details the reader needs to know about.

As usual, this homework project will last two weeks so please have your stories ready to bring in on **Friday 20th November.**

Reading

Please keep filling in your Reading Record, ensuring you write at least one comment a week.

Maths

Next week we will continue your work on fractions. You have done very well tackling this week. Try and note any real life examples of using fractions you see this weekend.

English

We will continue to think about science fiction writing next week – can you think of any exciting ideas to include in your stories.

Other Notes.

On Wednesday morning, Class 7 will take part in HGV Road safety training.

We are very excited to have an inflatable planetarium, the Cosmodome, in school on Friday. This will be a great experience for all the children at Park Grove!

Also on Friday it is Children in Need day – bring a donation and wear pyjamas!

Please remember to bring in a donation for the Poppy Appeal 2015.
