

Class 3 newsletter

4th December 2015

What have we been doing this week?

In Maths we have been battling through the concept of fractions and Mr. Gardiner has been so impressed with how every child in the class has really started to gain a great understanding of the subject. Not only could the children find fractions of shapes, they could find fractions of different quantities. Well done Class 3!

In English we have carried on looking at instructions and, in particular, how to follow them. Also, we learned about imperative verbs that we use in bossy sentences - for one day only they were allowed to boss Mr. Gardiner about.

Week beginning 30th November

Monday: Library books

Tuesday: PE kit and home reading books.
Christmas Play.

Wednesday: PE kit, spelling and homework books. Christmas Play.

Thursday: Flapjack day, bring 50p if you would like a drink or flapjack at playtime
Red group show and tell this week. Please bring

What are we doing next week..?

English

In English we will be carrying on looking at instructions in text. We will also be writing a recount of the Christmas Play describing how fantastic everybody was and, very importantly, will be using lots of exciting connectives in our work.

Maths

Next week in maths we will be beginning to handle money and will be looking at the different coins we use in day to day life, gaining a greater understanding of their individual values. We will also be seeing if there is more than one way of making a particular value using lots of different coins. Please do show the children the coins that you use in day to day life to help their understanding develop further!

Topic

In DT we will be evaluating the toy robots that we made this week.

In RE we will be looking at the Christmas story and why it is important to Christians.

In Science we will be finishing off an experiment about materials.

In Art we will carry on looking at artist Alexander Calder and making an 'Alexander mobile'.

In PE we will be 'rounding off' our gymnastics topic by putting together a sequence using all the different aspects we have learned about this half term.
