Dear Resident

### **Park Grove Footway Reconstruction**

The City of York Council will start work week commencing 26<sup>th</sup> November 2018 to reconstruct the footway shown on the plan overleaf. This scheme is programmed to take 3 weeks weather permitting.

The scheme involves taking up the current tarmac surfacing, re-grading the stone foundation and laying two new layers of tarmac. Selected road kerbs are to be replaced.

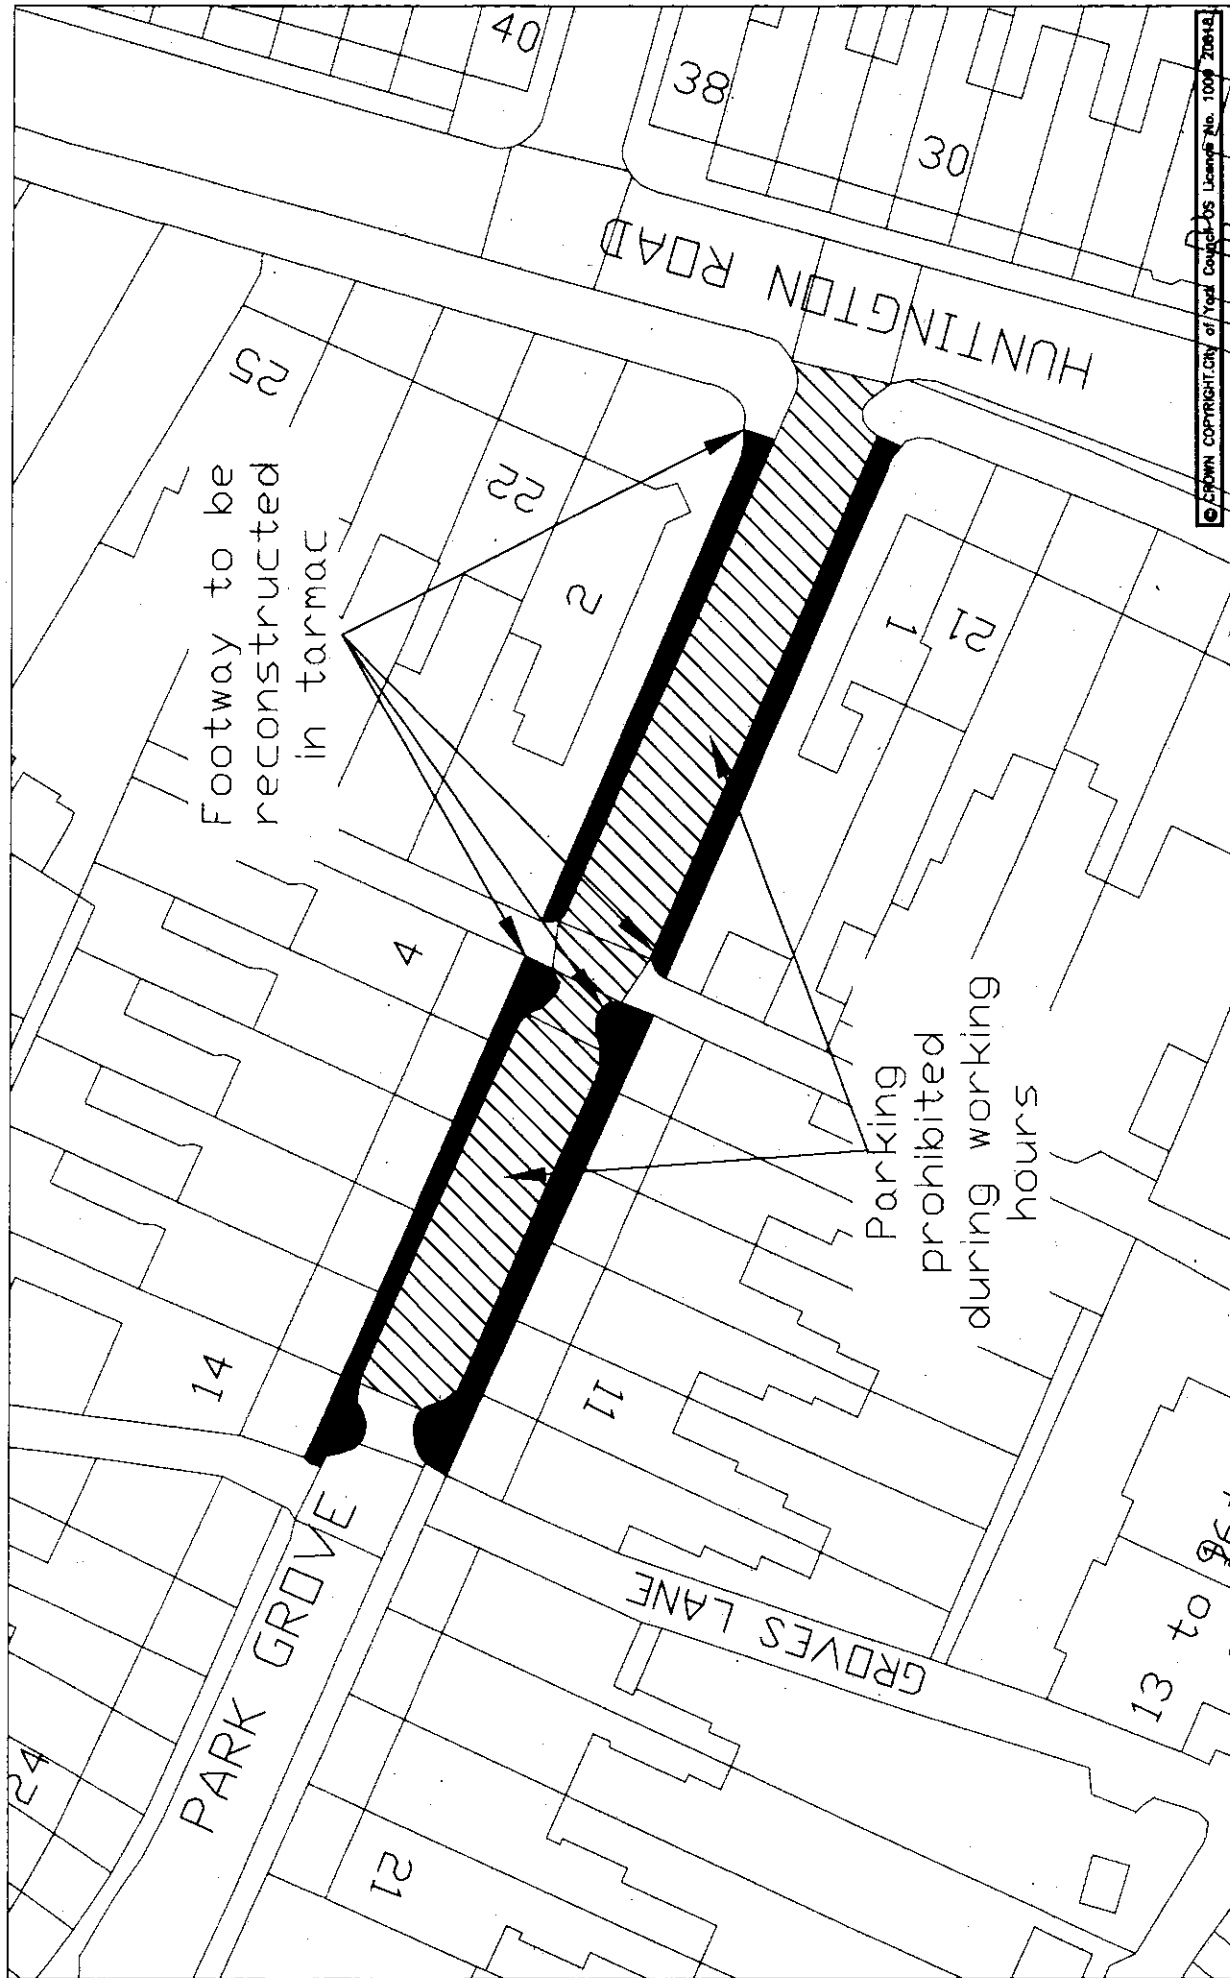

To undertake this work a parking suspension will be in operation **during working hours**. We will only cone off those areas we need to work each day.

The Contractor carrying out the work will be City of York Council's Highways department who are responsible for your safety while the work is ongoing. The contractor will be working between 8am and 3:30pm Monday to Friday, although some out of hours work may be required.

As with any construction work there is likely to be a certain amount of disruption and inconvenience, but I would like to assure you that everything reasonably possible will be done to keep this to a minimum. During the works please take care around each area of construction. If you have any concerns please do not hesitate contact me.

Yours faithfully

Sean Ensor  
Engineering Technician
