

22nd February 2021

World Maths Day

Dear Parents and Carers,

We will be celebrating World Maths Day this year at Park Grove. The day falls on Wednesday 4th March, the day before World Book day, but we thought it would be lovely to have the two days to celebrate together.

All the lessons that day will focus on maths and there will be lots of cross curriculum links to demonstrate how maths is used everywhere and how much fun it can be! Teachers will send activities for your child to take part in via remote learning on Bloomz or Google Classroom, but please feel free to do any of your own maths related activities too!

Here is a sample of activities that will be taking place throughout the day.

- Maths in storybooks - e.g Hungry Caterpillar, How big is a Million?
- Making booklets about our favourite numbers/ about what maths is
- Maths in art
- Time Table Rock Star tournaments
- Problem solving activities - e.g. emoji code breaking
- What can you do in a minute?
- Ecomaths
- Finding out about famous mathematicians
- Number scavenger hunts

We'd love to see what you get up to at home to celebrate maths - please send us your pictures and work!

Have a great day!

Best wishes,

Will Gardiner and Vicky Hearson
