

5th January 2023

Dear Parents/Carers,

We would like to introduce our new Knowledge Organisers which will be replacing the parent information leaflets we have been sending each term. There is a knowledge organiser for all year groups and you will receive the one that is relevant to your own child. All organisers can also be found on our website.

These Organisers outline the key knowledge which we would like children to learn during the current topic and can be used at home as discussion points. Not all subjects will be listed every half term as some lend themselves to certain topics e.g if a topic is heavy on History there may be no Geography included, but over the year this will even out.

Maths and English subjects are taught separately and information about these can be found on our website.

We hope you find these useful and give a clearer picture of the key learning taking place in school.

Yours sincerely,

Vicky Hearson
