Nature Walk - Friday 10th February

Dear Parents/Carers of Year 3 and 4 children,

As a part of our new science topic, 'Living Things and their Habitats', we will be taking the children to Bowls Park (on Haxby Road). This visit will give the children the opportunity to put their new classification skills into practice. Using their classification keys they will identify and name different plants around the park.

The trip will happen during their science lesson, leaving school at 1:45 and arriving back for 2:45/3:00 ready for home time.

We will need additional adult support to enable adequate supervision of the children. If you are available to help, please message your child's teacher via Bloomz.

Thank you for your continued support.

Miss Hemsley, Miss Reeder and Miss Drake.
