31st March 2023

MESSAGE FROM MISS SAWYER

Welcome to the last newsletter of the Spring term. It is hard to believe we are here already!

Yesterday, we had a very special Easter assembly with Easter poems and songs, which was lovely. We also did our attendance raffle and reading plus winners. There was a real celebration with so many children winning a prize.

Congratulations to Sol, from Green class, who won our star prize for attendance - a £50 Pizza Express voucher. To see who won the other prizes, please look at our [Twitter page](#). If you get chance, please follow us or give us a 'like'. Next term, our star prize for the attendance raffle will be a £50 Hollywood Bowl (bowling and mini golf) voucher. Children need to be in school by 8:45am each day to win a raffle ticket. Good luck everybody!

Happy Easter and have a safe and restful time with your families

Message from the Director of Public Health for the City of York

Measles, Mumps and Rubella (MMR) are all highly infectious conditions which spread very easily between unvaccinated people and can have devastating and life changing consequences for those to become infected and are not vaccinated.

Currently Measles is circulating in Europe so any families looking to travel to holiday destinations need to be aware of this risk this poses to children or adults who are not vaccinated.

Rubella in early pregnancy is rare but it can have devastating implications from loss of the baby (miscarriage) to problems with the baby's sight, hearing, heart and brain. The MMR vaccination is a 2 dose vaccination. one is given at 1 year of age and the other at 3 years 4 months – all children and adults require two doses to ensure full protection. However if anyone has not had two doses there is an open offer from the NHS to provide these regardless of age, you can do this by contacting your GP practice and ask for a vaccination appointment. It is important to catch up on any missed vaccinations. The vaccination is free and can be given at any age to those who have missed either or both of the two doses.

For more information about the vaccine and the illnesses it prevents go to: [MMR \(measles, mumps and rubella\) vaccine - NHS](#)

TWEET OF THE WEEK

Park Grove Primary @ParkGroveSchool · 28 Mar

Magenta and Turquoise class had some great discussions this afternoon. @YorkYoYoTrust posed the question 'Is it better to express your beliefs in arts and architecture or in charity and generosity?' #ParkGroveKS2 #ParkGroveRE @eboractrust

DATES FOR YOUR DIARY

Monday 17th April - School opens for summer term

Tuesday 9th May - PTA meeting (more details to follow)
