

1st December 2025

Dear Parents/Carers,

I hope this letter finds you well. As part of our ongoing commitment to fostering academic excellence and supporting our learners in their educational journey, we would like to invite you to an important meeting regarding the upcoming Multiplication Tables Check (MTC) for Year 4 pupils.

The MTC is a statutory assessment which aims to determine whether pupils can recall their times tables up to 12 x 12 quickly and accurately. This assessment, which will take place in the summer term, is crucial not only for evaluating individual progress but also for strengthening essential mathematical skills that underpin much of the mathematics curriculum.

We recognise that parental involvement is key to a child's success, and therefore, we encourage you to attend this meeting where we will explain the MTC in detail. Our discussion will cover the following points:

- The objectives and importance of the MTC.
- The format and expectations of the assessment.
- How you can support your child in their preparation to ensure they feel confident and well-equipped.

The meeting is scheduled for **Thursday 11th December at 5:00 pm in Indigo Class**. We anticipate that the session will be approximately **30 minutes**, providing time for questions and discussions.

We sincerely believe that your engagement in your child's education can make a significant difference, and we hope to offer you valuable strategies and resources that you can utilise at home. Last year, our Year 4 cohort achieved great results and the support of our parents made a key difference to our pass rate being so high.

Thank you for your continued support and collaboration in enhancing our pupils' learning experiences. We look forward to seeing you there.

Please confirm your attendance by completing the Google Form below.
